OxSynergy Core

Small space, big enjoyment, infrared relaxation for health

WarmTech™ 1-2 Person Red Light & Infrared Sauna Red light therapy and infrared dual technology system

Equipped with 8 patented high-output infrared therapy panels, it achieves ultra-low electromagnetic field (EMF) emissions, ensuring maximum safety. This advanced all-wood sauna cabin features innovative functions such as programmable timers, continuous operation mode, and therapeutic color light therapy. The patented magnetic locking system allows for assembly without tools, while the deep-seated chairs and elevated design offer exceptional comfort.

This product is crafted from solid wood with meticulous details, perfectly combining advanced infrared technology with elegant craftsmanship, providing users with a refreshing and rejuvenating health experience.

慢性疼痛治疗

Chronic pain treatment

Double soothing: infrared thermal energy, red light therapy

WarmTech™ 1-Person Red Light & Infrared Sauna

Red light therapy and infrared dual technology system

This advanced sauna system combines far-infrared heating with therapeutic red light technology. It is equipped with 11 low electromagnetic radiation (EMF) far-infrared carbon heaters, which are strategically distributed across four zones, each precisely calibrated to ensure optimal performance and safety. The deep-penetrating infrared waves promote blood circulation, accelerate metabolism, and aid in detoxification, while red light therapy helps enhance skin health and muscle recovery.

This product is perfect for athletes and health enthusiasts, helping to reduce fatigue, enhance performance, and provide a full relaxation experience. Its ergonomic design includes enhanced seating and user-friendly control interfaces, offering users a high-end sauna experience.

SUPERCOVER[®]

coldTech™ Ice Bucket Max

The unique inclined body design of the Max ice bath tub conforms to ergonomics. Combined with an 8cm thick wall and a stylish black appearance, it offers excellent insulation and durability while providing a more comfortable soaking posture, making full-body cryotherapy more thorough and efficient.

SUPERCOVER[®]

coldTech™ Ice Bucket Air

The ice bucket is made of durable, skin-friendly PVC. The Air model features a lightweight design for a professional cold therapy experience. Its 5cm thick walls ensure structural stability while maintaining an ideal water temperature of 3°C (37°F) for extended periods. It pairs perfectly with coolers and is especially suitable for relaxation and recovery after daily training.

SUPERCOVER[®]

coldTech™ Chiller core

Coldtech™ Chiller Core The basic model cooling system is designed for daily training recovery, using refrigeration technology to continuously provide a stable 3°C cold therapy environment for ice baths. It features a precise filtration system to ensure clean water quality, compatible with various standard ice bath equipment, and is simple and convenient to operate, making it an ideal choice for individual users and small fitness facilities.

Whether it's which type of ice bath bucket, it can be used together, compact design saves space while ensuring the best cryotherapy experience.

Efficient cooling, easy to carry. Experience the power of cryotherapy through an ice bath.

The ice bath is designed to meet everyone's needs, whether you are a beginner or an experienced athlete. Using efficient refrigeration technology, it quickly cools the water to the appropriate temperature for an ice bath. It helps athletes recover quickly, reduces muscle fatigue, and alleviates inflammation. Portable and easy to use, it makes post-training recovery more efficient.

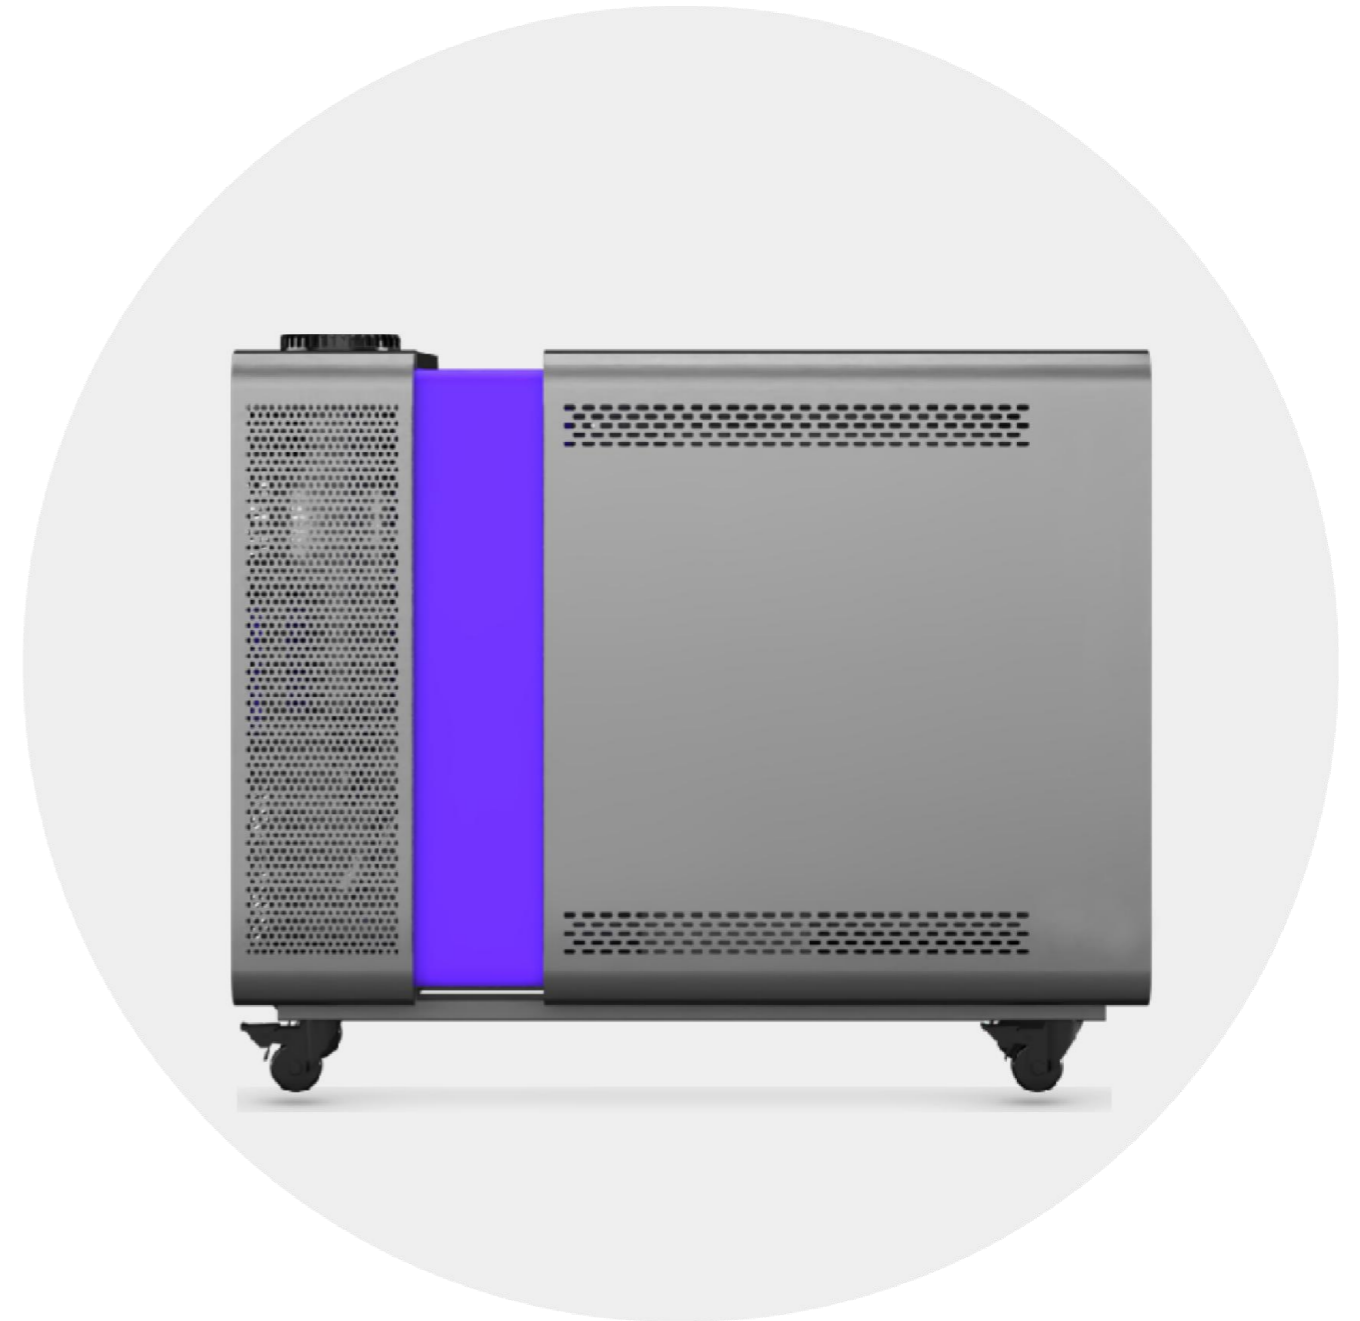

SUPERCOVER[®]

coldTech™ Chiller ultra

Coldtech™ Chiller Ultra The professional version of the cooling system is designed for those who push boundaries, offering premium cryotherapy experiences. It improves the cold water immersion process through enhanced design and superior insulation.

Coldtech™ Chiller Ultra Utilizes industrial-grade refrigeration systems to quickly provide powerful cooling for large ice baths. Supports smart remote control and features washable filter units, meeting the stringent demands of high-intensity training and commercial settings

MINI OXYGENERATOR
Beyike cup-style health oxygen
generator5000m

Elevation is available.

Enjoy a smooth journey;
No worries about
altitude sickness

Water Cup Style Health-
Oxygen Machine

A portable oxygen
generator the size
of a water bottle

Weighing only 1.5 kilograms, roughly the
weight of a 1.5-liter bottle of mineral water,
carrying it up the mountain won't tire you
out.

French brand molecular sieve,
double-tube filling, high-purity
oxygen output

Using high-grade lithium molecular sieves from
France to adsorb nitrogen from the air, separating
out highly concentrated fresh oxygen.

Fascia gun derivatives

Dual head MINI muscle massager

MINI F5

Half the result with half the effort,
extremely fast and soothing

Double head interlocking deep impact relaxation efficiency is
comprehensively improved

MB-A

Innovative dual-mode

Covering all muscle groups throughout
the body

Effortless ergonomic design | 12mm amplitude
Stretching massage band | 5-speed adjustment

01

Reformer H02

Equipment size: L2360/W600-850/H360
Equipment weight: 75 kg
Packaging size&weight: Wooden crate: L2440/W865/H560 149 kg
Carton: (bed) L2340/W640/H220 75 kg
(Seating box) L675/W420/H345 15 kg
Material: Carbon steel/stainless steel/aluminum (different parts have different materials)
Surface treatment: spray coating
Safe operating load capacity: 130 kg
Trolley travel distance: 1075mm
Adjust the gear lever: 10 gears
Configuration includes: bed frame/seat box/springboard

Five parameters of the spring (color can be adjusted according to different needs))

Color	Wire diameter mm	Diameter mm	Length mm	Total length mm
Black	2.8	29.8	370	470
Blue	2.3	26.4	370	470
Yellow	2.0	24.7	370	470

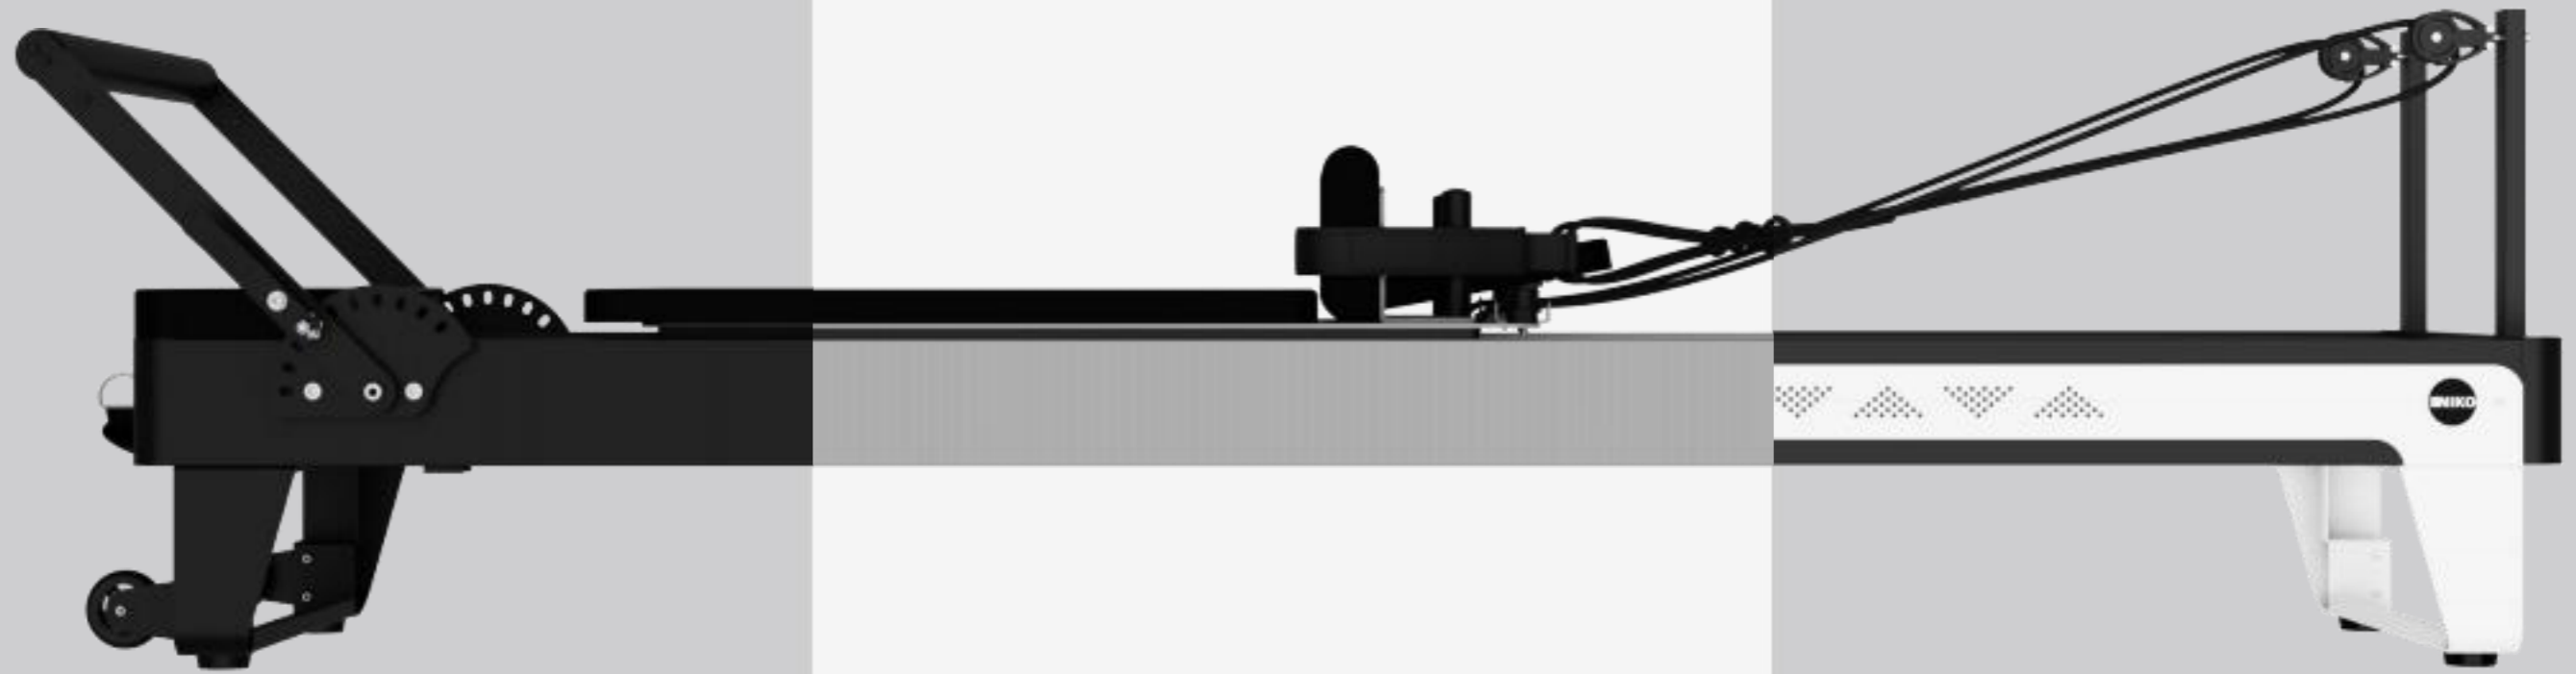

Color	Initial force value		Medium force value		Ultimate force value		Shock times per thousand	Punch cutting value	
	KG	LB	KG	LB	KG	LB		KG	LB
Black	3.77	8.33	13.2	29.4	27.8	61.2	100	0.27	0.594
Blue	2.67	5.9	5.7	12.54	14.5	31.9	100	0.16	0.352
Yellow	1.86	4.12	4.22	9.3	8.4	18.5	100	0.11	0.242
